

Functional Programming with Scala

Project Title: Project FP

Group Name: Group 8

HE, Jiayi

IG5_Polytech

November 19, 2024

- **Your Specific Contribution:**

- Calculate the top 5 impact scores for the years 2021 to 2024.

- **Methodology or Approach:**

- Queried Neo4j using Cypher to identify trends and extract meaningful insights.

- **Challenges Faced and Their Resolutions:**

- Challenge: Writing efficient Cypher queries to handle large datasets and extract top impact scores.
- Resolution: Broke down queries into smaller steps.

- **Learning Gained:**

- Gained hands-on experience with Cypher language for graph database queries.
- Improved understanding of integrating MongoDB, Neo4j, and Spark in a single workflow.

- **Future Improvements:**

- Improve visualization of graph data.
